Member of the SAC Premium Cattle Health Scheme

Accredited since 2010 free of

BVD

Lepto

Johne Level 1 Status

TB testing exempt

Membership of the Premium Cattle Health Scheme from establishing the "Moffat" herd in 2008.

Free of BVD, Johne and Lepto from first herd test in 2010.

It has an eco-friendly, grass based system on LFA land.

Cows are expected to rear a spring born calf every year. There is no creep feeding until a few weeks before winter housing when the calves are weaned.

 LOCHER PAULA F117

Pandora is a well grown 2 year old in calf heifer, sired by my previous stock bull Ballindalloch Eagle W588 and scanned in calf to my new stock bull Eilean Platnum Y236. She is due to calf in September. My system is based on spring calves and Pandora and the next in calf heifer Miss Beauty are having autumn calves because Platnum would not settle with one of my homebred bulls when he came on site.
